

Steel Mobile Platforms

Dimension Indicators:

- A = Actual Platform Height
- B = Actual Platform Depth
- C = Platform Ladder Width
- D = Platform Ladder Base Length
- E = Platform Ladder Total Height

Usage

This range of platform ladders are manufactured in Australia from zinc plated mild steel in accordance with AS/NZS1892.1:1996.

Features & Benefits

- Available in Aluminium or Stainless Steel by special request
- Easy-lock positive action mechanism holds the ladder firmly in place when the bottom step is lowered, transferring the weight of the two swivel wheels to the fixed legs
- Larger models (9-12 step) feature fold-out stability arms for added safety
- Steps have a generous width and gentle step rise
- Ladders are flat packed for freight purposes
